

UML Class Diagram

Andrew Williams | October 16, 2019

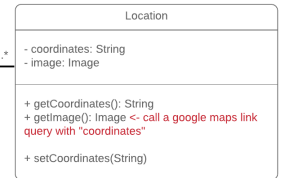

NOTE: Social situations are created FOR a specific mood, and do not exist without it

NOTE: Emotional states are defined before hand. E.g. happy, sad, angry

NOTE: How are we going to implement images?

Two options are:
- file reference
- byte array

NOTE: "Mood" can be thought of as a "Tweet" or a "Post"

NOTE
